Wagner-EWAR – Our standards

Being close to the market and reacting fast are prerequisites for success. Our in-house production ensures that we can offer this flexibility. This enables us to guarantee a high level of quality and to keep delivery times extremely short.

Our experienced employees come to offer these stalwart advantages of working for us, which through their excellent technical understanding and continuous training, ensure that we are always one step ahead. It also means that our products are often considered the precursors of innovative solutions.

In any case, from the planning stage to implementation, you will always have an authoritative and dedicated partner at your side.

Wagner-EWAR – Our material

Stainless steel, as its name suggests, is a high-grade material. On the one hand it excels through its durability and robustness and on the other hand through its timeless appearance.

The stainless steel, has been exclusively processed by us, material number AISI 304, also known as chrome nickel steel 18/10, also boasts the enjoyable property of absorbing light and colours from the environment and reflecting them back again. This means that stainless steel devices can be easily integrated into almost every room where they also set standards.

Stainless steel, unlike most other materials, meets the increasingly stringent hygiene requirements: The surfaces feature durable mechanical and chemical resistance and can be easily and efficiently cleaned.

This makes stainless steel the ideal combination of longevity, functionality and stylish aesthetics in satin or polished finishes.

Wagner- EWAR – Our sanitary equipment programme

The programme captivates us with its carefully considered complement of design and functionality. The quality of our products convinces users right down to the last detail.

Continuous improvements to products and exact processing guarantee the utmost hygiene: easily accessible corners, welded edges and simultaneously avoiding unnecessary attached parts and notches provide you with the necessary security.

Even in day-to-day work our devices can be easily and quickly cleaned, easily filled or emptied. Last but not least, stainless steel ensures that the pleasure you gain from Wagner-EWAR products will be long-lasting.

Wagner-EWAR – Our clients

Our work is tailored to the requests, ideas and visions of architects, planners and interior designers and therefore also to those of their clients and contractors.

We advise and inform about the different designs, combination options and installation variations in public and commercial buildings such as airports, exhibition halls, schools and universities, hotels and restaurants, banks and insurance companies, council buildings and local authorities and sports centres etc.

“The secure handle” programme for barrier-free living also offers applications for clinics, care centres and in the wellness field.

We meet our clients’ high standards where quality, functionality and design are concerned.

THE SAFE GRIP BARRIER-FREE LIVING

Grab handles, support rails, shower curtain rails, seats

- satin finish, grab handles and support handles also available with structured surface
- handles and seats have been TÜV/GS tested and CE designated

Contents (no image)

BA 260 Corner basket

- dispensers hinged for refilling
- soap dispensers with single-handed operation, drip-free soap pump
- lockable

WP 114

Paper towel dispenser
 298 x 298 x 120 mm

- capacity: approx. 250 paper towels

WP 112

Paper towel dispenser
 298 x 448 x 120 mm

- capacity: approx. 500 paper towels

WP 1200

Hot air hand dryer
 298 x 396 x 150 mm

- contact-free, HF radar sensor technology
- low noise development
- drying time 30 s factory setting
- power rating 2000 W

WP 147

Waste bin
 298 x 898 x 220 mm

- capacity: approx. 32 litres
- with mesh basket

WP 1310
WP 1311

Electronic touch-free paper roll dispenser
 350 x 484 x 210 mm

- capacity: 1 paper roll
- contact-free, capacitive sensor technology
- residual roll function
- paper length and idle time adjustable

WP 1310 transformer-operated
WP 1311 battery-operated

WP 1410
WP 1411

Electronic touch-free paper roll dispenser
 350 x 580 x 210 mm

- capacity: 1 paper roll + 1 reserve roll
- contact-free, capacitive sensor technology
- residual roll function
- paper length and idle time adjustable

WP 1410 transformer-operated
WP 1411 battery-operated

WP 134

Waste bin
 298 x 598 x 120 mm

- capacity: approx. 11 litres
- with mesh basket
- with hinged lid

Models for combinations

- available in satin and polished finishes
- lockable

WP 501

Combination paper towel dispenser and waste bin
298 x 645 x 164 mm

- capacity: approx. 250 paper towels
- waste bin with mesh basket
- capacity: approx. 11 litres
- with hinged lid

WP 530

Combination paper towel dispenser and waste bin
298 x 898 x 120 mm

- capacity: approx. 250 paper towels
- hinged for refilling
- with mesh basket, capacity: approx. 11 litres
- with hinged lid

WP 540

Combination paper towel dispenser and waste bin
298 x 1048 x 120 mm

- capacity: approx. 500 paper towels
- hinged for refilling
- with mesh basket, capacity: approx. 11 litres
- with hinged lid

**WP 500
WP 500e
WP 500-1
WP 500-5**

Combination paper towel dispenser, soap dispenser and waste bin
298 x 1348 x 120 mm

- dispenser hinged for refilling
- capacity: approx. 250 paper towels
- capacity:
 - WP 500: 950 ml soap bottle
 - WP 500e: Sensor-soap dispenser with 950 ml soap bottle
 - WP 500-1: 1100 ml fixed soap tank
 - WP 500-5: 400 ml foam soap concentrate
- with mesh basket, capacity: approx. 11 litres
- with hinged lid

WP 612

Combination paper towel dispenser and waste bin
298 x 748 x 140 mm

- for tile flush installation
- with continuous doors
- capacity: approx. 250 paper towels
- with mesh basket, capacity: approx. 7 litres
- waste deposited from top

WP 610

Combination paper towel dispenser and waste bin
298 x 1198 x 140 mm

- for tile flush installation
- with continuous doors
- capacity: approx. 750 paper towels
- with mesh basket, capacity: approx. 13 litres
- waste deposited from top

WP 5010

Combination paper towel dispenser and waste bin
298 x 1048 x 220 mm

- capacity: approx. 250 paper towels
- with mesh basket, capacity: 32 litres
- waste deposited from top

WP 5110

Combination paper towel dispenser and waste bin
298 x 1198 x 220 mm

- capacity: approx. 500 paper towels
- with mesh basket, capacity: 32 litres
- waste deposited from top

WP 5120

Combination paper towel dispenser and waste bin
298 x 1198 x 220 mm

- capacity: approx. 500 paper towels
- with mesh basket, capacity: 32 litres
- waste deposited from top

WP 5410

Combination paper towel, soap dispenser and waste bin*
448 x 1198 x 220 mm

- capacity: approx. 500 paper towels
- soap dispenser with single-handed, drip-free soap pump
- capacity: 950 ml soap bottle
- with mesh basket, capacity: approx. 48 litres

WP 5420

Combination paper towel, soap dispenser and waste bin*
448 x 1198 x 220 mm

- capacity: approx. 500 paper towels
- soap dispenser with single-handed, drip-free soap pump
- capacity: 950 ml soap bottle
- with mesh basket, capacity: approx. 48 litres

WP 5450

Combination electronic touch-free paper roll dispenser and waste bin
448 x 1348 x 220 mm

- capacity: 1 paper roll
- contact-free, capacitive sensor technology
- residual roll function
- paper length and idle time adjustable
- with mesh basket, capacity: approx. 48 litres

WP 5710

Combination paper towel, soap dispenser and waste bin*
448 x 1348 x 320 mm

- capacity: approx. 750 paper towels
- soap dispenser with single-handed, drip-free soap pump
- capacity: 950 ml soap bottle
- with mesh basket, capacity: approx. 72 litres

WP 5720

Combination paper towel, soap dispenser and waste bin*
448 x 1348 x 320 mm

- capacity: approx. 750 paper towels
- soap dispenser with single-handed, drip-free soap pump
